Massachusetts Department of Environment Protection
Unpaid Internship Job Description

The Massachusetts Department of Environmental Protection [MassDEP] is the state agency responsible for ensuring clean air, land and water. This includes the safe management of toxics and hazards, the recycling of solid and hazardous wastes, the timely cleanup of hazardous waste sites and spills, and the preservation of wetlands and coastal resources. MassDEP offices include: Boston, Wilmington, Springfield, Lakeville and Worcester.

MassDEP is seeking college students interested in environmental fields such as Brownsfields, wetlands, recycling, cleanup of sites and spills, emission standards clean water/ clean air and regional planning. Duties may include research and analysis on environmental science and public health and the development of communication materials for public awareness campaigns. MassDEP also has a Bureau of Administrative Services; including an Information Technology Department.

Successful candidates will have distinguished themselves by their college experience through outstanding academic performance and leadership in a variety of academic, extracurricular and/or community service activities. Mass DEP seeks a highly motivated candidate that possess a good work ethic, someone who can think creatively, solve problems as they arise, work collaboratively, take initiative, attend to details, and take responsibility for task completion. Good written and oral communication skills are essential.

Qualified candidates must possess the following credential and skill set.

- Entered into a degree program to include engineering, math, environmental/science, policy or the physical sciences;
- Experience and/or knowledge of environmental science and processes;
- Good organizational and time management skills;
- Attention to detail and commitment to quality;
- Strong oral and written communication skills and;
- Be a team player; with the ability to multi-task
